ABDUR RAHMAN

(Profession: HSE Manager / Engineer)

Email: Armankhan3483@gmail.com

Contact: +966 553840395

Transferable Iqama (Expiry: 08/12/2025)

Current Location: Dammam (Eastern Region)

Career Objectives:

To utilize my expertise in health, safety, and environmental management to develop, implement, and maintain comprehensive HSE systems that ensure the safety and well-being of employees, contractors, and the community. I aim to proactively identify, assess, and mitigate risks while ensuring full compliance with local, national, and international safety regulations and environmental laws. By fostering a culture of safety, promoting continuous improvement, and leading training programs, I strive to reduce workplace incidents, enhance environmental sustainability, and contribute to the overall operational efficiency and success of the organization.

Experience Summary

Total Experience: 10 Years

Educational Qualification:

- Bachelor of Science in Electrical Engineering (Session:2010-2014)
- S.S.C(Secondary School Certificate) from Malakand public high school & collage (Pakistan)

Higher Education commission Memberships

- Pakistan Engineering council
- Saudi Engineering council

Safety Certifications:

- OTHM Level-7 (October-2023)
- NEBOSH-IGC (Level-3) (January-2021)
- OSHA (July-2017)
- IOSH (July-2017)
- TUV SUD certified Lifting Supervisor (December-2019)
- Saudi Electricity Approved Work Permit Issuer (September:2017)
- Train The Trainer
- Environmental Coordinator
- Emergency Coordinator
- HSE Leadership
- Hazards Identifications & Risk Assessment
- Accident & Incident Investigator
- Fire Coordinator
- Lifting Supervisor

RESUMES

Projects:

- Construction of Al Rames 380/115kV BSP (Current project)
- Construction of Henakiyah 380/115KV BSP
- Construction of HUGRS 380/230KV BSP
- Expansion of Madain Al Saleh 380KV BSP
- Al-Mansoura (Al-Ahsa) 110/13.8 KV Transformer, OCB and SWGR Dismantling and Installation.
- SWCC project Shuqaiq-III project.
- SWCC project Khobar.
- COVID-19 In-charge in Alfarn steel.
- Petro Rabigh shutdown.
- YASREF (Yanbu Aramco Sinopec Refining Company LTD) shutdown
- Riyadh Metro Project – Line 4, 5 & 6
- HSE Engineer at Alfarn Technical Services

Approvals:

- Saudi Electricity Company (Eastern Region)
- Saudi Electricity Company (Western Region)
- SWPC's Shuqaiq 3 IWP
- YASREF (Yanbu Aramco Sinopec Refining Company Ltd.)
- Rabigh Power Company (RPC)
- Riyadh metro (Alstom rail project in Riyadh)
- ACCIONA (SWCC) Al-Khobar

Skills:

- Risk Assessment & Hazard Identification
- Regulatory Compliance
- HSE Management Systems
- Incident Investigation & Reporting
- Safety Audits & Inspections
- Emergency Response Planning
- Environmental Management
- Training & Development
- Data Analysis & Reporting
- Problem Solving & Decision Making
- Communication & Leadership
- Project Management
- Continuous Improvement
- Behavioral Safety
- Environmental Sustainability
- Regulatory Documentation & Reporting
- First Aid & Health Management

RESUMES

Duty & Responsibilities

1. Developing HSE Policies and Procedures:

- Create and implement health, safety, and environmental policies in line with industry standards, legal requirements, and company objectives.
- Establish and maintain clear safety procedures and operational guidelines.
- Update and revise safety protocols based on evolving laws, regulations, and best practices.

2. Risk Assessment and Hazard Identification

- Conduct regular risk assessments to identify potential safety hazards in the workplace.
- Assess and analyze workplace environments, equipment, and processes for risks and recommend corrective actions.
- Implement procedures to monitor and evaluate hazards in construction sites, factories, offices, etc.

3. Compliance and Legal Requirements

- Ensure compliance with all local, national, and international safety and environmental regulations.
- Stay updated with relevant laws, regulations, and standards (e.g., OSHA, EPA, ISO 45001, ISO 14001).
- Organize audits and inspections to check compliance with legal and regulatory requirements.

4. Training and Awareness Programs

- Develop and implement HSE training programs for employees to promote a culture of safety and environmental awareness.
- Conduct safety orientations for new employees and ongoing training for existing workers on various HSE topics.
- Educate employees on the correct use of personal protective equipment (PPE) and emergency protocols.

5. Accident and Incident Investigation

- Investigate accidents, injuries, and environmental incidents to identify root causes and prevent recurrence.
- Report and document incidents and near-misses accurately, identifying preventive measures and corrective actions.
- Maintain a record of incidents and accidents, ensuring all reports are filed according to legal requirements.

6. Emergency Response and Preparedness

- Develop and implement emergency response plans, including evacuation plans, fire drills, and first-aid protocols.
- Conduct emergency drills and simulations to ensure staff are familiar with the processes.
- Ensure that proper emergency equipment (e.g., fire extinguishers, first-aid kits) is available and regularly maintained.

RESUMES

7. Environmental Impact Management

- Monitor and manage the organization's environmental impact, including waste management, pollution control, and resource conservation.
- Ensure compliance with environmental regulations such as waste disposal, air emissions, and water quality standards.
- Promote sustainability initiatives to reduce the company's carbon footprint and environmental impact.

8. Performance Monitoring and Reporting

- Monitor and evaluate HSE performance through inspections, audits, and reporting.
- Create reports on HSE performance, incidents, and audits for management, providing analysis and recommendations for improvements.
- Track and report on safety metrics such as accident frequency rates and near-miss incidents.

9. Contractor and Supplier HSE Management

- Ensure that contractors and suppliers adhere to the organization's HSE policies and procedures.
- Evaluate and assess the safety performance of contractors before hiring or engaging in projects.
- Provide guidance to contractors on safe work practices and ensure that safety standards are met.

10. Budget and Resource Management

- Develop and manage the HSE department's budget, ensuring adequate resources for training, safety equipment, and compliance initiatives.
- Procure and maintain necessary safety and environmental equipment and supplies.

11. Promoting a Safety Culture

- Promote a positive safety culture within the organization, encouraging proactive participation from all levels of staff.
- Advocate for safety as a core value and integrate HSE goals into the overall business strategy.
- Recognize and reward safe practices and behaviors in the workplace.

12. Continuous Improvement

- Foster a continuous improvement mindset for HSE management within the organization.
- Use data and feedback to improve safety protocols, processes, and systems.
- Implement new technologies or practices that improve HSE standards.

Training:

- Permit to work
- SEC five Star safety
- Electrical Safety (LOTO)
- Rail Track Safety
- Track Turn out
- Work at Height
- Confine space
- Tunnel Safety
- Planned Job Observer
- Critical Tasks Analysis

Shuqaiq Three Company for water Approval

شركة الشقيق الثالثة للمياه
Shuqaiq Three Company for Water

Project : SHUQAIQ-3 INDEPENDENT WATER PROJECT (IWP) DESALINATION PLANT
Owner : SHUQAIQ-3 COMPANY FOR WATER (S3CW)
Owner Consultant (OE): WSP Consultant
Off-Taker : Saudi Water Partnership Company (SWPC)
EPC Contractor : Acciona Agua S.A.

14th Oct' 2021

To Whom This May Concern

I am working for Shuqaiq Three Company for Water (S3CW), in Shuqaiq City, Saudi Arabia. On the IWP Project for OWNER as the Project HSSE Manager for the construction of SWRO Desalination Plant. During this time, I met Abdur Rahman Inayat, he worked as the HSE Engineer for M/s AlFanan Co. subcontract of EPC Contractor M/s Acciona Agua Construction Company.

This is to certify that Mr. Abdur Rahman S/o Inayat Ur Rahman has worked at Shuqaiq-3 IWP as an HSE Engineer of S/c AlFanan (working with Acciona Agua S.A, EPC-Contractor) at Shuqaiq-3 Desalination project. He has a valuable contribution for successful completion of 08 million Safe Man-hours (LTI-Free). During his work tenure, he proved himself honest, hardworking, and reliable towards his duties. He was responsible for the following tasks:

- Supervise the team of HSE Officers in the overall implementation of the Health, Safety & Environment (HSE) Program and involve in training for workers in personal protective equipment and safe working methods.
- Ensure training, toolbox meetings, and drills are implemented as part of the HSE management plan, i.e., emergency response systems, etc.
- Investigating and completing the process for closeout of all Observation Reports and submit report based on the lessons learned to the EPC Contractor and verified by Project Company (S3CW) once necessary.
- Reporting to the management any concerns, deviations, and hazards that have been discovered, recognized, and evaluated and which may adversely or negatively affect work.
- Implementation of HSE plan and checking compliance with Standards, Policies, and Procedures regularly by inspecting and auditing workplace for compliance with project HSE Management Plan.
- Conduct and implement active and reactive monitoring measures system to measure the performance of the organization. Carryout the recording and investigating of injuries and equipment damage.
